

Extraordinary Announcement of 4iG Plc.

on concluding a non-binding Memorandum of Understanding

4iG Public Limited Company (hereinafter referred to as: “4iG”) hereby informs the participants of the capital market that today a non-binding Memorandum of Understanding was signed in Baku, Azerbaijan, between 4iG Space and Defence Technologies Private Limited Company (hereinafter referred to as “4iG SDT”) – as a member of the 4iG Group – and the Space Agency of the Republic of Azerbaijan (hereinafter referred to as “AZERCOSMOS”) in order to identify potential collaboration opportunities in the field of space industry.

The non-binding Memorandum of Understanding reflects the shared interest of 4iG SDT and AZERCOSMOS in the fields of Low Earth Orbit (LEO) Earth observation, including the mutual sharing and utilization of Earth observation data, communications via GEO satellite, and the installation and operation of satellite ground segments. Furthermore, the parties have expressed their willingness to cooperate in the development of technological synergies for the manufacture, assembly, integration and testing of small satellites (MAIT), the launch of joint R&D and innovation projects, and the implementation of educational and internship programs.

The parties’ aim is to jointly identify specific areas of cooperation in the space industry that could form the basis of a long-term partnership. As a confirmation of their shared intentions, 4iG SDT is the title sponsor of the Space Technology Conference- Central Eurasia (STC 2025 Central Eurasia) currently taking place in Baku.

AZERCOSMOS, as the Space Agency of the Republic of Azerbaijan, committed to providing customised solutions based on advanced technologies for peace and prosperity, focused on providing connectivity globally, nurturing talent, serving as a regional space hub and contributing to the space industry development in Azerbaijan.

4iG Space and Defence Plc. is a stand-alone holding company covering the space and defence industrial interests of the 4iG Group with the aim to enter the global market in the fields of satellite development, manufacturing and operation, satellite services, UAS manufacturing, counter UAS development and defence industry digitalization services.
