Extraordinary Announcement of 4iG Plc.

Regarding the execution of a share purchase agreement for the acquisition of an 55% shareholding in REMRED Plc. and a capital increase

4iG Public Limited Company ("**4iG**") hereby informs capital market participants that, on 10 November 2026, its subsidiary, **4iG Space and Defence Technologies Private Company Limited by Shares** (registered seat: 1013 Budapest, Krisztina körút 39.; company registration number: 01-10-142725; "**4iG S&D**"), **entered into a share purchase agreement for the acquisition of shares representing 55%** (fifty-five per cent) of **the registered share capital of REMRED Plc.** (registered seat: 1121 Budapest, Konkoly-Thege Miklós út 29–33.; company registration number: 01-10-142448; "**REMRED**"), an internationally recognised Hungarian space technology company**, for a purchase price of HUF 5,000,056** ("**Transaction**"). As a result of the Transaction, **4iG S&D will become the sole (100%) owner of REMRED**. In addition to the execution of the Transaction documents, **4iG S&D will carry out a capital increase in REMRED in the amount of HUF 7.2 billion**, thereby ensuring the continued operation of the target company and the implementation of its ongoing projects.

The Transaction is expected to close following receipt of the necessary regulatory approvals and fulfilment of the other closing conditions specified in the share purchase agreement. In accordance with the applicable laws and regulations, 4iG will inform the capital market of the further steps in connection with the Transaction and of its completion.

Upon successful completion of the Transaction, 4iG S&D will become the sole (100%) owner of REMRED, an internationally recognised Hungarian space technology company which, building on decades of experience gained at Hungarian research institutions, develops space weather and radiation protection equipment. As a member of the 4iG Group, REMRED has also established the REMTECH space technology centre in Martonvásár, a facility unique in the region and capable of manufacturing, assembling and testing small satellites.
